

Celebrating 20 years of
innovative interiors and
extraordinary people

Innovative Interiors. Extraordinary People.

We're proud of what we've achieved since our very first shop fit in 2004.

This simple brochure celebrates our work and honours the extraordinary people who use the spaces we design, manufacture and install. Workspaces, places for leisure and learning, and specialist environments built with innovation, quality and a solutions-based approach. We're here, we're better today than yesterday, and we're building relationships for another twenty years.

Matthew Burrows
Managing Director, TJM Projects

ABOUT US

Interior designers, quantity surveyors and meticulous M&E engineers

We design, manufacture, construct and install spaces, places and specialist environments.

We take a solutions based approach, we create a family, and we build relationships for the long-term. Our clients can be individuals, developers, corporations or governments. All of our work for the last twenty years has been made worthwhile by the extraordinary people that use the places we create.

'I arrived in 2006 as TJM's first apprentice joiner. I was 16 and fresh out of school in Wigan. I've seen us grow, buy Eckersley Joinery and step into more creative and specialist projects. I've progressed in my career, and today I'm leading twenty engineers on a site in Manchester.'

Reflecting on our journey and looking ahead

The world is changing,
construction is changing and
so are we.

Moving forward, experience tells us we'll be pre-fabricating and assembling more materials off site in our Manchester workshop. Modular designs and plug and play equipment will continue to make installs simpler, swifter and cleaner. We'll be taking on higher specification jobs and more specialist environments. Thank you to everyone who has been a part of our journey so far.

Tony McCabe
